## PROJECTS

### Dynamic Event Scheduling Web App

📅 05/2024 - 06/2024    📍 Remotely  
🔗 <https://github.com/React-Duo/Event-Calendar>

A feature-rich event calendar web app for managing and organizing personal events daily, weekly, and monthly. The app enables event creation, invitations, and seamless collaboration, with admin functionality for managing users and events.

#### Technologies used:

- React, JavaScript, Firebase database (NoSQL), HTML, CSS
- Live URL: [event-calendar-c74a9.web.app/](https://event-calendar-c74a9.web.app/)

### Personal Finance Management App

📅 07/2024 - Present    📍 Plovdiv, Bulgaria  
🔗 <https://github.com/todor-savov/Expense-Tracker>

Allows users to register transactions, attach receipts, and edit entries. It features a dynamic table with filtering and sorting options and users can visualize their finances with pie charts and graphs. Budgeting and tracking monthly limits are also supported.

#### Technologies used:

- React, JavaScript, Firebase database (NoSQL), TypeScript, Material UI
- Live URL: [expense-tracking-app-33495.web.app/](https://expense-tracking-app-33495.web.app/)

### Online Discussion Forum for React Enthusiasts

📅 05/2024 - 05/2024    📍 Remotely  
🔗 <https://github.com/React-Duo/Forum-Project>

A dynamic and responsive forum application with an intuitive user interface, real-time data synchronisation and secure user authentication with Firebase.

#### Technologies used:

- React, JavaScript, Firebase Database (NoSQL), HTML, CSS
- Live URL: [reactduo-forumproject.web.app/](https://reactduo-forumproject.web.app/)

### GIF Search and Browse Site

📅 04/2024 - 04/2024    📍 Remotely  
🔗 [https://github.com/Cyber-Creators/WebProject\\_1](https://github.com/Cyber-Creators/WebProject_1)

Developed a Giphy website using vanilla JavaScript and the Giphy API to showcase trending GIFs. The site allows users to upload and favorite their own GIFs, with local storage functionality to manage favorites and enhance the user experience.

#### Technologies used:

- vanilla JavaScript, localStorage API

### Remote Resource Monitoring Desktop App

📅 04/2018 - 02/2019    📍 Remotely

Created a client-server network app for admins to monitor CPU, RAM, and disk usage of remote Windows computers via a platform-independent UI. It helps with decision-making for upgrading or replacing LAN resources.

#### Technologies used:

- Java, MySQL

## TECHNOLOGIES

JavaScript	React	TypeScript
PHP	Java	Web servers
HTML/CSS	Linux/Bash	AWS

## WORK EXPERIENCE

### Technical Support Analyst

#### SiteGround Hosting

📅 02/2013 - 12/2023    📍 Plovdiv, Bulgaria

#### Web Hosting services

- Awarded Technical Support of the Month in a team of over 130 members.
- Key contributor to the Spanish-speaking support team, one of only three individuals tasked with supporting the Spain/Latin America market, which has been consistently growing for over eight years.
- Achieved a success rate of over 75% in resolving customer issues, surpassing the department average by approximately 7%.
- Expert in troubleshooting server environments (Linux) and configuring a wide range of CMS platforms, including WordPress, Joomla, Magento, and Moodle.
- Supported and troubleshooted PHP/MySQL-based applications while providing technical assistance to customers. Additionally, developed a finance management web app using PHP and MySQL, implementing key features like transaction tracking and data visualization.

### M.Sc. European Business and Finance (joint master degree)

**University Nottingham Trent/UNWE**

📅 10/2009 - 07/2011 📍 Sofia, Bulgaria - Nottingham, UK

### B.Sc. Marketing

**University of National and World Economy**

📅 10/2005 - 07/2009 📍 Sofia, Bulgaria

## STRENGTHS

### Commitment to stay long-term

I have worked for nearly 11 years at the same company (SiteGround) which is a sign of my loyalty and commitment to stay long-term with a company that appreciates my contributions and values both my skills and personal qualities.

### Playing for the team

I enjoy working and sharing my knowledge with other people. It brings me a strong sense of fulfilment and is something I am born with. I don't see my success separate from my colleagues' own success.

### Attention to detail

I have a keen eye for identifying gaps, inconsistencies, and potential improvements in software. Whether it's spotting missing functionality, edge cases, or overlooked user experience issues, I often uncover areas that need refinement, ensuring a more robust and polished final product.

## THINGS I AM PROUD OF

Gathering the strength and determination to leave my stable, long-term job as a technical support analyst to pursue a career in web programming, which I find far more creative and aligned with my true self.

## INTERESTS

### Volunteering

Support various charity causes on [TimeHeroes.org](https://TimeHeroes.org), including donating food to a stray dog shelter in the town of Stamboliyski.

### Sports

Enjoy soccer and basketball, regularly watching the English Premier League, Spanish La Liga, and the NBA. Also, love shooting hoops (basketball) for fun to refine my skills.

### Foreign Languages

I love learning new languages and speak with people from different cultures. I'm fluent in English and Spanish and look forward to expanding my German skills further.

### Books

Passionate about classics, fantasy, travel, business, and psychology books. Some of my favorites include *Atomic Habits* (James Clear), *Night Watch* (Terry Pratchett), and *Martin Eden* (Jack London). Explore my personal book list on [Goodreads](https://www.goodreads.com/user/show/12345678).
